

Optimize[®] 400

The seed you have purchased has been custom treated with *Optimize[®] 400 LCO Promoter Technology[®]* from EMD Crop BioScience.

The retailer is responsible for applying the products below in accordance with claimed on-seed periods.

Optimize 400 seed must be planted within the following time frames:

SEED TREATMENT

None

ApronMaxx[®] RTA,[™] RFC,[™] Bea Pak[™]

CruiserMaxx[™] Beans

Trilex[®] 2000, 5000, 6000

Gaicho[®]

Senator[®] 600

Warden[™] CZ, RTA

120 Days

If the seed is not planted within the timeframes above, the product should be retreated. Severe conditions (drought, hot soils, flooding) may affect the ability of the plant to nodulate. EMD Crop BioScience makes no warranties or guarantees, expressed or implied, as to the effectiveness of the treatment. EMD Crop BioScience must be notified of any field complaints within 70 days of planting.
